

Dynamic Start, Smooth Finish ~

Dorothy Manning learned the art of real estate in Washington, DC, where she was liaison for foreign private investors and sold embassies to foreign governments. She also became a listing master, focusing on condominium conversion projects and larger luxury single family homes. Her mentor was the White House Chief of Protocol.

In Boston, she founded International Business Protocol, a consulting and training company, to coach Americans in the art of negotiation in international markets. The Governor tapped her to manage protocol for the visits of the Presidents of the United States and of France for the Bicentennial of Lafayette Day.

A teacher by training, she has always loved playing monopoly and regards real estate as playing monopoly for real. She earned a PhD in French from Duke and is a private investor herself. Dorothy loves the creativity of real estate and is here to serve you in projects large and small.
