OUR VALUE	• Results-oriented, cost-effective solution for business cyber security needs • Knowledge transfer and building awareness of your organization is a priority

WHAT WE DO

- **Compliance Assessments/Audits –** Assessments conducted for organizations to verify compliance with various regulations, including
    - **Federal Information Security Management Act (FISMA**)
    - **Critical Infrastructure Protection Act (CIPA)**
    - **Federal Financial Institutions Examination Council** (**FFIEC**)
    - **Health Insurance Portability and Accountability Act (HIPAA)**
    - **General Data Protection Regulation (GDPR)**
    - **Personally Identifiable Information (PII)**
    - **Protected Health Information (PHI)**
    - **Food and Drug Administration (FDA)**
    - **Industrial Control Systems (ICS)**
    - **Supervisory Control and Data Acquisition (SCADA)**
    - **Family Education Rights and Privacy Act (FERPA)**
    - **Various other state, federal, and global regulations**
- **Training –** providing organizations the information and certifications needed to be secure in the cyber security space.
- **Risk Management Framework (RMF)** – providing consulting services to organizations to meet compliance requirements and seeking the Authority To Operate (ATO) in a DOD environment.
- **Disaster Recovery/Business Continuity** – Contingency planning for maintaining critical business operations is a critical fiduciary responsibility. Planning, preparedness, procedures and practice define the organization's maturity in this area.
- **Penetration Testing** – Conducted by Certified Ethical Hackers, this identifies vulnerabilities which could be used by external hackers.
- **Mobile Test Facility** – provide the ability to set up a Pearson Vue mobile testing center to test right after training.
