PAST PERFORMANCE/EXPERIENCE HIGHLIGHTS

CyberLocke, LLC's management and technical expertise, coupled with our ability to respond to the most difficult networking technology problems and security issues, lead the field.

- **CEO:** Matthew Hutchinson serves CyberLocke, LLC as the chief executive officer and technical expert for network design, security solutions, infrastructure development, value-add partner relations, and general business management and operations. He is most noted for his technical management work with a renowned consumer credit reporting agency, where he applied his superior skills to mitigate a Cybersecurity data breach incident in record time.
- **Director, Government Services:** Anthony (Tony) Goe serves as CyberLocke's Director of government services. He achieved the rank of Sergeant Major before retiring from the US Army at the 20-year mark with award of the Legion of Merit for his performance as the COR for the Army Intelligence Agency's management information system initiative and HQ, JSOC IT implementation. He subsequently joined the contracting world to provide Program and project management for mission-critical contracts in the Intelligence Community (AIA, CIA, DIA, USAINSCOM, etc.) and Federal Bureaus (BATF, FBI). He was awarded the Computerworld Smithsonian medal for Heroic Achievement in IT and was selected as the contractor of the year by the Defense Intelligence Agency.
