

Wherever you are, wherever you go, we are there!

TDI offers the most comprehensive packaging solution in the world.

- It starts with TDI's design support and U.S. based sales and customer service. Developing retail packaging that meets packaging target performance and pricing.
- Then use the TDI's global network of high quality, cost effective local packaging suppliers to execute the packaging production to U.S. performance standards.
- TDI in country QC teams will coordinate all key quality tests required.
- TDI in country QC teams will ensure that our customer's print and performance requirements are strictly followed.
- TDI local project managers will coordinate packaging delivery to OEMs.
- Our solution is ideal for single and multiple country packaging quality and consistency control with one packaging source servicing multiple OEMs.
- Leveraging your total packaging spend with one of our retail packaging partners will result in extremely cost effective, tightly controlled packaging programs.

TDI CENTRALIZED PROCESS
